

IT SECURITY CONSULTING

We perform Discovery and Risk Analysis to validate the security posture of your business. We identify, prioritize and assist in remediating areas of risk. Our approach is not a one size fits all solution. Each assessment is tailored to meet the individual business and regulatory requirements.

SOLUTION DESIGN & SYSTEMS MANAGEMENT

Allow your staff to focus on the day to day operations of running the business. Our staff can augment their efforts in safeguarding your high dollar assets with security architecture design and system management services.

STAFFING & SUPPORT SERVICES

Looking for security professionals? We offer temp to permanent, or direct placement security personnel on demand.
